

MONOPOSTO RACING

Class Specification

Formula C/Formula III

December 2016

FORMULA C/FORMULA III

I. Engines

Engine displacement below or equal to 1100 cc. Cars with rotary piston engines covered by the NSU-Wankel patents will be admitted on the basis of a piston displacement equivalence. This equivalence is twice the volume determined by the difference between the maximum and minimum capacity of the working chamber.

II. Suspension

Shock absorbers may not be more than two-way adjustable and may not have remote reservoirs.

III. Minimum Weight

Minimum weight 750 pounds as qualified or raced without driver.

IV. Fuel Tank Capacity

Maximum fuel tank capacity: 16 U.S. gallons.
